STATEMENTS

Statement of the Islamic Emirate of Afghanistan Regarding the Safety of the Detained Mujahideen in the Guantanamo Prison

5 February 2011 15:28

According to a report by credible sources, the prominent Jihadi commander of Nangarhar province, Moalim Awal Gul embraced martyrdom on Wednesday last due to bestiality of the American rulers. "*We are creatures of Allah and return to Him (eventually).*"

It is now one year since the issuance of decree by the figurehead president of America, Barack Obama, concerning the closure of the Guantanamo Prison but it is still operative. Hundreds of Mujahideen have been suffering in the prison in a very brutal environ for the past nine years without any legal justification. On the one hand, the prisoners are deprived of their basic rights of life but, on the other hand, they have borne the brunt of the callous and inhumane conduct of the American jailers during the past nine years. The indictments have not been proved against them as yet. They are deprived of the right to have access to lawyers to defend them. Hundred of times, the American ruler resorted to the use of weapon against the prisoners whenever they staged strikes for obtainment of their legitimate rights. The martyrdom of the eminent commander Moalim Awal Gul at the hands of the Americans in Guantanamo Prison is a clear indicator of the American violation of all national and international agreements and covenants and portrays their brutal behavior with the detainees in this illegitimate prison.

The Islamic Emirate of Afghanistan calls on all so-called Heads of the judiciaries of the White House and the coalition countries to stop torturing the prisoners of the Islamic Emirate and end violation of their human rights. Otherwise, the responsibility will rest with your military and judicial chiefs, should the Islamic Emirate have to take any step in response to your brutality. Similarly, the Islamic Emirate of Afghanistan strongly urges all global organizations of human rights and of prisoners' rights advocacy entities to fulfill their humanitarian responsibility as regards the prevention of the bestiality of the brutal Americans against prisoners in Guantanamo and in other Americans prisons.

The Islamic Emirate of Afghanistan

Response of the Islamic Emirate of Afghanistan about the Secret Talks between the Kabul Stooze Administration and America Regarding Permanent Bases.

9 February 2011

Talking to reporters in Kabul, following his visit to India and Germany, Hamid Karzai, the Head of the Stooze Kabul Administration said that America desired to set up permanent bases in Afghanistan. He said that they were negotiating with America in this regard. However, he said, such treaty if concluded, would be affirmed and ratified by the parliament. Previously an American senator Lindsay Graham had indicated that America should establish permanent bases in Afghanistan to allow it to remain there beyond 2014. But at that time, the Karzai Administration had denied its being engaged in the talks. Now it has been substantiated that a collusion had been going on since long clandestinely. As the Islamic Emirate of Afghanistan has already rejected the notion of Lindsay Graham in this regard, calling it a wicked effort on behalf of the American colonialism, the Islamic Emirate once again declares to the Afghans and to all people of the world, its position regarding this colonialist project of America as under :

1. Afghanistan is under the occupation of America. No treaty and agreement has legitimacy in condition of occupation. These sham treaties do not reflect the aspirations and objectives of the Afghans.
2. The permanent bases in Afghanistan will turn our country into a de facto hotbed of American conspiracies. They will use these bases to change regimes in Afghanistan and the neighboring countries, utilizing them (the bases) as instruments of pressures. Therefore, these permanent bases in Afghanistan stand in contravention to our Islamic and national interests and objectives. They can't be acceptable.
3. In our view, America wants to keep us deprived of independence forever under the structure of permanent bases and usurp our natural resources. This is certainly an illegitimate venture.
4. The Americans installed those characters and figures in the so-called Independent Election Commission (IEC) as chief and members who are linked with the Americans and have sold their souls to them. The aim was that they would declare those well-known agents and elements as winners who have sold themselves quid pro quo dollars. Then they would (easily) get approved the treaty of the permanent bases from the parliament. All are aware of the fact that majority of those who have been declared as members of the parliament have links with America in one way or the other. They do not represent the aspirations of the people.
5. The Afghan Mujahid people neither accept any would-be treaty of the Karzai Stooze Administration with America regarding establishment of permanent bases nor accept their ratification by the so-called phony parliament. We do not differentiate between establishment of a few bases and occupation of the whole country.
6. America should know that no country in the region wants American permanent bases in Afghanistan. The establishment of permanent bases would mean inception of war against the region at large.
7. We call on all countrymen to join hands with each other in (a knot of) brotherhood against the invaders in order to thwart the nefarious plan of the enemy and protect the Islamic and national values. Foil the conspiracies of the invaders by siding with the Mujahideen with all your strength!
8. The Islamic Emirate of Afghanistan declares that the Mujahideen of the Islamic Emirate will continue its legitimate struggle and jihad until the attainment of complete independence of Afghanistan and establishment of an Islamic system there. The global colonialism will go to grave along with its ambitious plan of permanent bases, if God willing.

Statement of the Islamic Emirate of Afghanistan on the occasion of the 22nd anniversary of the Red Army withdrawal from Afghanistan

14 February 2011

On February 15, 1989, the invading forces of the former Soviet Union fled Afghanistan. However, to begin with, the invading army had not entered Afghanistan to face defeat vis-à-vis the resistance and jihad of the empty-handed Afghans and eventually have to pull out of Afghanistan humiliatingly. The Islamic jihad and resistance of the Afghan Mujahid nation compelled the colonialist army not only to withdraw from Afghanistan, being defeated but caused their Red Empire under the name of the former Soviet Union collapse, rendering the communist atheist ideology futile at world level.

Initially, the invading Soviets were wallowing in their intoxication, riding on the waves of conceit of their military might. They occupied Afghanistan to use it as a springboard for reaching the Indian Pacific Ocean like what the invading Americans are doing now. But before reaching the Indian Ocean, they themselves drowned in the ocean of the blood and sacrifices of the Afghan Mujahid people. Waves of this hurricane of the ocean of blood shattered down the skyscrapers in the heart of Kremlin, crumbling it to prolong its era of superiority. The invading Soviets like the Americans of today were hankering after extending their domination over the whole region through occupation of Afghanistan but due to the help of the Almighty Allah and as the result of the jihad and sacrifices of the Afghans, not only they failed to prolong the occupation of Afghanistan but lost control of all their occupied republics of central Asia. Their dominance over the Eastern Europe came to an end and the Warsaw Pact was dissolved.

The Russians came around to know after a decade-long occupation of Afghanistan that arm-twisting with the brave Afghans is tantamount to annihilating oneself. Nothing more than that, it will yield. So they concluded that the Geneva Accords were a good pretext to withdraw their defeated troops. They pulled their morale-sagging troops out of Afghanistan disgracefully and humiliatingly. Today, another arrogant empire has occupied the same Afghanistan by dint of their invading troops and the Afghan Mujahid nation is once again engaged in combat against the invading Americans and their coalition forces, i.e. NATO. The era of current resistance has almost completed ten years. The world community concedes that the invading Americans and their allies are now facing the same moribund situation that their predecessor, the invading Soviets, were facing. Their showdown of muscles has proved in vain; they have lost their war spirit; tens of thousands of their troops have been either killed or wounded; their economic expenditures have broken their spine bone and strongholds of Jihad and resistance against the invaders have sprang up all over Afghanistan.

The Americans had thought that they would occupy central Asia and the entire region by means of occupying Afghanistan but Afghanistan by its very nature, is not a country to give itself to occupation so smoothly. Previously, the Britons had stepped over this land with the same covetous fantasy but instead of stabilizing their occupation of Afghanistan, they themselves ended up losing their great empire at the hands of the Afghans. Genghis Khan and Alexander had tested the strength of the Afghans' warfare. Now the American empire is hovering over the edge of collapse. If they intend to prolong the occupation of Afghanistan and the sufferings of the Afghans because of their imbecility, they will face the fate of the Soviets and Britons which occurred in the past century. But if they put to use their rationale rather than being bent on stubborn stupidity and put an end to this tragedy by bringing to a close the occupation of Afghanistan and withdraw their forces unconditionally, then they will not only save themselves but will eradicate the factors of insecurity in the whole region.

The Islamic Emirate of Afghanistan, while celebrating the victory of the legitimate Jihad of the Afghan Muslim nation against the invading Red Army and marking the 22nd anniversary of the withdrawal of the Red army from the country, once more re-affirms the need for continuation of the legitimate Islamic Jihad against the invading Americans and deem it an effective mean for the ouster of the invaders.

Response of the Islamic Emirate Regarding the Victory of the Popular Uprising in Egypt

14 February 2011

The more than two-week long popular uprising in Egypt, at last, compelled Hosni Mubarak, ruler of that country, to step down by ceding to the basic condition of the protesters. He was at the helms of affairs of the Egyptian government for the last thirty years and had been enjoying all-sided American and Israeli assistance in financial, political and intelligence fields. However, ground realities established (once more) that arsenal of weapons, huge army and foreign support is no guarantee for continuation of power; nor they can prevent the caravan of the aspirations of the people from forging ahead. Whenever, the patience of the people overwhelms its brims, it is set to lead its way as a strong tide. The Islamic Emirate of Afghanistan prays to the Almighty Allah to grant further success to the Egyptian people like the victory of the historical uprising which they have already attained, so that they will succeed in establishing a real, independent and Islamic government and foil conspiracies of the foreign enemies. Though the uprisings of the Egyptian people have reached its destination of victory but the real phase of trial has just began. The Egyptian people must use these crucial moments to their advantage and carve out a new political life and direction as a Muslim nation. The developments in Egypt have a clear message for the invading Americans and their surrogates in Afghanistan, unveiling that:

1. Your use of advanced weapons, destruction of orchards and houses and filling prisons with free people does not contribute to your continuation of authority. The atrocities that you commit against the Afghan people today will soon usher in a revolution and the vessel of your arrogance will drown surely following inception of a popular uprising, if God willing.
2. You are intending to establish a colonialist system in this 21st century. This is an adventure being both against the aspirations of the people and the time. You will never succeed in your wicked (ambitious) plan in this juncture of history. The time and people both are against you.
3. The two-faced America urges peaceful transition of regime in Egypt but in reaction to self-same popular demands in Afghanistan, they bombard villages; turn wedding ceremonies and other festivities into scenes of mourning; martyr innocent Afghans in the stillness of night while being fast a

sleep. All these are being committed (against them) because the Afghans demand their legitimate rights. What face and conscience remain to Americans to make show of their democracy and liberty while they have themselves unleashed a river of blood in Afghanistan under the empty and fatuous slogan of democracy!

4. The stooge Kabul Administration has taken now the shape of a mafia state. Government vehicles are used for drug trafficking and wealth have been accumulated in hands of a few pro-American sycophants. This inequity will pave the way for the inception of a popular revolution, and will eradicate this tenure of tyranny and atrocity through a comprehensive revolutionary movement.

5. For almost the last decade, you have fought against the Afghan Mujahid people with all your power but you gained nothing except humiliation, financial crisis and a spine-breaking load of debts. Do you think you will be able to bring Afghanistan under your belly so smoothly?. Or otherwise, you will be buried in this graveyard of the empires as a result of the inundating tides of a popular uprising.

6. We tell the rulers of the White House and Pentagon how long would you be able to create mounds in the way of the aspirations of the masses through launching fraudulent elections, meaningless conferences, hatching conspiracies and rearing quail less surrogates and continue your colonialist policy interminably?. How long would you be able to hide your life and equipment losses from the eyes of your people? Have you forgotten the financial melt-down in America during last year?. Is the nearly \$ 1.5 trillion budget deficit not a sign of your imminent downfall?

7. Almost 24 hours had not passed after the resignation of Hosni Mubarak, that some American rulers and the Time publication started pointing to him with insulting remarks. We remind the present rulers of the Kabul incumbent Administration that the American colonialism do use you against your people today and give you tapping on your back but tomorrow, these same invaders will call you murderers of humanity and traitors. They will clean their blood-stained and soiled hands with your clothes. Now it is high time; come to yourselves; abandon slavery of foreigners and choose the way of your people.

8. All people of Afghanistan must be cautious in these crucial moments at the current juncture of time and be on guard against all subversive plans and conspiracies of the enemies of Islam and the country. Give hands of brotherhood to each other against the Western colonialism, injustice, atrocities, brutality, corruption and the western culture of nakedness; move forward like a solid-cemented wall in the direction of popular Islamic revolution!

The Mujahideen of the Islamic Emirate are at your service and side. We believe, the (final) victory is ours. The enemy will happen to become debased and humiliated, if God willing.

The Islamic Emirate of Afghanistan

Response of the Islamic Emirate of Afghanistan in Reaction to the UN Report on Civilian and Children's Casualties in Afghanistan

17 February 2011

Banki Moon, Secretary General, UNO, has said that 1,795 children have been killed or injured during attacks of Mujahideen and operations of Americans in the past two years. But as usual, he has blamed Mujahideen for the most part of the casualties. The UNO report also mentions an unsubstantiated incident which was circulated by some colonialism- related media outlets in June last year, claiming that Taliban had executed a 7 year old boy on charges of spying in Sangin district of Helmand province. While leveling these charges against the Mujahideen, Banki Moon, has claimed that a reduction has been witnessed in civilian and children casualties during Americans' operations. Furthermore, he has applauded the signing of action plan with the Kabul stooge administration against recruitment of children in army and police.

We strongly condemn the two-faced policy of the UNO which is clear from its above-mentioned assertions. Meanwhile, we support any action aimed at protecting life of civilians, old men, women and children. We also remind Banki Moon, UN Secretary General that we are followers of an order and a law which was bestowed on humanity as a great gift of the mercy of God through the Holy and beloved Prophet of God Mohammad(peace be upon him) at the occasion of Haj-ul-Widaa 1400 years ago. Then darkness was prevalent all over the world and man hardly knew the word of human rights.

It is a pity that this world body is playing politics now in this 21st century under the name of protection of human rights and distorts facts in order to please Washington. Therefore, to elucidate the matter further, the Islamic Emirate of Afghanistan wants to present the following points before the UNO and the international community:

1. Who attacked the wedding ceremony in Dehrawood, Uruzgan; a funeral in Azizabad, Herat; a wedding ceremony in Shinwar, Ningarhar; a shrine visitors in Paktia; passengers in Paktia and a congregation attendees in Zadran? Were they the Taliban or the invading Americans who did this?. Haven't hundreds of children and civilians lost their lives in these gruesome events? Have you raised this issue?

2. Has the Islamic Emirate not announced its readiness to the world in clear terms that let's constitute a joint commission to pinpoint the perpetrators and then punish them . Why you are still silent on this issue and are dodging to shoulder the task?

3. Did not the American National Intelligence Council dropped the existing ground realities in Afghanistan to include them in their revised estimate report which published in December on demand of General Petraeus, fearing it will contradict his claims of success against Taliban and that the Mujahideen were responsible for civilian casualties? Are your remarks not part and parcel of this policy and do not they support this trend?

4. Isn't your assertion part of the general policy devised by James Clapper, director of the American National Intelligence, CIA and General Petraeus last year, which emphasizes that American troops casualties be reported much less than the actual number and their human rights violations be kept secret from the knowledge of the public. Contrarily, the casualties of Mujahideen should be exaggerated and various blames of human rights violations should be leveled against them. Following this, the criticisms by Human Rights Watch in New York, World Amnesty International and the so-called human rights commission of Afghanistan, leveling charges of civilian and children casualties against Mujahideen are a clear indicator that those entities are working for the American colonialism under the umbrella of protection of human rights.

5. Why your good self don't bother to raise the issue of murder of 150 civilians in Kunduz 1.5 years ago who lost their lives as a result of bombardment of American jet fighters? Why you do not condemn the incident? All people are aware of the perpetrators.

6. The UN report also has pointed to a claim that Taliban executed a seven year old boy in Sangin district of Helmand province in June last year. At that time, the Islamic Emirate sent an investigation team to the area which reported after a complete investigation that no event of that kind had ever happened in the said locality i.e. Sarwan Kalla. Neither the enemy had carried out any operation or bombardment which would have necessitated arrestment of any one on suspicion of spying. Furthermore, we would like to point out that as per the prevailing laws of the Islamic Emirate, no commander or a judge is allowed execute any one by themselves. Complete investigation and approval of the leadership is must in such cases. Is this claim not similar to the claim of the Time Magazine which published a picture of a young Afghan girl whose nose had been cut off. The magazine claimed, Taliban had done this but later it was proved that Taliban had no role in the incident. Even the reporter who reported it first says it was a family criminal case. Similarly, the family of the girl says, Taliban are not involved but America politicized the issue for attainment of well-known goals.

7. During the reign of the Islamic Emirate of Afghanistan, the esteemed Amirul Momineen (may Allah protect him) instructed ministry of defense and home affairs to take action against recruitment of children in their units and contingents and do not use them at the front line of war. These instructions are still operative. But it is pity and irony that you signed an agreement with the Kabul Stooze Administration against recruitment of children in the army after the passage of one decade of war in Afghanistan. It raises the question that why you so-called protectors of human rights postponed this crucial issue of human rights for ten years to sign?

8. The UNO report has also said that Mujahideen should respect principles of Geneva Convention about war. We have been urging from the beginning that all parties of the war should abide by the recognized laws of the war. But again which principle of the Geneva Convention allows America to keep thousands of innocent detainees in Bagram, Kandahar and Guantanamo? Which law of human rights says to deprive them of access to self-defense and keep them imprisoned without trial? Have the Special Forces not established brutal cells of detainment in every military base where they brutally torture them and many of them have succumbed to the torture and lost their lives. Did the famous Jihadi personality Moalim Awal Gul not die in Guantanamoi this month because of torture? Which human rights law was that to keep him in Guantanamo without trial for the past nine years.

9. The Afghans are awake now. They can tell the White from the Black. The people witnessed the essence of years slogans of democracy, women's and children's rights, freedom of speech with their own eyes. Repetitions of these slogans only damage you. Put an end to this drama. Leave the land of the Afghans to the Afghans.

The Islamic Emirate of Afghanistan

Statement of the Islamic Emirate of Afghanistan Regarding the Martyrdom of Innocent Afghan Civilians as a Result of American Merciless Bombardment in Ghazi Abad District, Kunar Province.

22 February 2011 05:11

Five days ago, the invading forces in Afghanistan led by America launched brutal aerial attacks against civilian houses in Adargol, Chowki and Wigal areas of Ghazi Abad district, Kunar province, resulting in martyrdom of 70 common people. The victims comprised of old men, women and innocent children who embraced martyrdom. Similarly, numerous civilians have been wounded.

According to substantiated reports, the bestial American soldiers have totally looted people's houses, taking all valuable items. About 50 houses have been destroyed (in the raid), which belonged to people who had no link of militancy whatsoever with any faction. They were common miserable people. The Americans made bombardment during night when people were sleeping. Official of the Kabul Administration in Kunar have also confirmed reports of the civilian casualties.

The civilian casualties perpetrated in a brutal manner at the hands of the Americans have been committed at the time that, the United Nations in its report had claimed a few days ago that civilian casualties had greatly decreased during operations by Americans and their Allies. One week has not elapsed since the issuance of the report by UNO that the callous Americans once again resorted to committing genocide. They made many innocent Afghans to mourn and grieve over (their kith and kin)

The so-called advocates of human rights have not raised their voice about this horrendous event as yet. But usually, these so-called protectors of human rights and the apparently free media which have share in the colonialist goals, usually put the blame of civilian casualties on the Islamic Emirate when they arrange figures of civilian casualties. They try to launch negative propaganda against the Islamic Emirate through every possible means with full strength and fanfare. Meanwhile, they cover up crimes of foreign invaders. Thus they endeavor to manipulate the views of the common man.

We strongly condemn the merciless bombardment by the Americans in Ghazi Abad district, Kunar province. We believe it is an unforgivable crime. In the meantime, we assure our miserable people and families of the martyrs that your Mujahid brothers will avenge the blood of the martyrs on the enemy in the battle fields. Also, we tell the invading America and her murderous Allies, if you think that you are going to weaken determination of the Afghans by martyring innocent Afghans or that you will put terror into their hearts, it only displays flaws of your guesswork. You have not realized this nation as yet. Your brutal actions will further speed up the pace of the Jihadic momentum.

Soon, you will be wiped out in the imminent cyclone brought about by your atrocity, arrogance, brutality and other merciless actions. The tempest, if God willing, is approaching destination, with its ever outspreading waves.

It is not a hard task for Allah to accomplish.

INTERVIEWS

Laghman provinces Jihadi Military Commander, Maulawi Najeebullah Haqqani

10 October 2010

Laghman province is located in the East of the country. To the north are Panjsher and Nooristan. To the east in Kunar, to south is Nanagarhar and to the west are Kabul and Kapisa provinces. Laghman's provincial capital is Muhtarlam City and it has 4 other districts namely Qarghaye, Daulat Shah, Alishang and Alingar. Laghman has a name for its beauty and has strategically important location. It has a mountainous landscape which is covered with trees and jungles.

Jihadi Military Commander

Mauli Najeebullah Haqqani is the Jihadi Military Commander of Laghman province under The Islamic Emirate of Afghanistan. He was born in Moni Village of Shigal district located in Kunar to a Religious and Jihad loving family on 1348 H.S. He did his early education in his village mosque but then immigrated to Pakistan during the Russian led coup, where he studied until 8th grade. Then he began his religious studies and graduated in 1996 (Goergian Calender) from the prestigious Darul Uloom Haqqaniya Akora Khatak.

He was with the Islamic Emirate from its humble beginnings where he participated in the victorious campaigns of Gerishk, Dalaram and Farah province. His first official duty was in Farah Bank and then worked in the Departments of Intelligence, Finance and Information in Kabul. He was the Jihadi military commander in Kunar after the American led invasion and has also done his Islamic duty of Jihad in Nooristan until his appointment at the current position.

Alemarah: Hounarable Mauli Sahib, Asalamalaikum and the warmest of welcomes. Could you please tell our audience the Jihadic situation in Laghman at the moment?

Mauli Najeebullah Haqqani: Walaikumsalam

All praise is due to Allah and may his peace and blessings be on the leader of Mujahideen, Muhammad SAW and on his companions. For what follows: Firstly I would also like to extend by Kindest of regards to the Mujahideen working for Alemarah and its readers and am pleased to have this opportunity to speak to the Momin and Mujahid Ummah about situation of Laghman province. Alhamdulillah the Jihadic situation in Laghman province is very good and according to our expectations. Mujahideen have bases and heavy presence in Muhtarlam City, Qarghaye, Daulat Shah and Alishang districts. Qarghaye district, in which a large part of Jalalabad-Kabul main highway goes through, is mostly under Mujahideen control just like before. The enemy cannot enter Tor Ghar area of this district, Badpeeh area of Muhtarlam is also under our complete control. Similarly the area in and around the province center is always coming under Mujahideen bombings and assaults. The districts of Alishang and Daulat Shah are under Mujahideen's complete control. The enemy only has its presence in the district centers. As for Alingar, Mujahideen activity is not as strong and therefore is using guerilla tactics so far. So Mujahideen are always going forward in their Jihadi activities in Laghman. We have appointed governors and commissions for the various districts and so far don't have any serious problems regarding our Jihadic progress.

Alemarah: Could you give us information about the presence of invaders in Laghman?

Mauli Najeebullah Haqqani: American's are based in Laghman, just like in other eastern provinces. They have a base in Muhtarlam city and Alishang district center. They also have a PRT in Kala Gosh area between Laghman and Nooristan provinces. They are now busy in building a new base in Kambere area of Qarghaye district.

Alemarah: How many Mujahideen are there in Laghman?

Mauli Najeebullah Haqqani: I will not be able to tell you the exact figures due to them being military secrets but can say that Alhamdulillah we have enough of a presence in all the districts that if the enemy tries to come out of their base on patrol or for an operation, Mujahideen can confront and stop them and similarly we have enough logistics to properly equip our Mujahideen and so far don't have any serious problems in that area.

Alemarah: A very recent event which requires our attention is the operation which was carried out against ANA in Badpeeh area. This is an event which the enemy tried to hide and hasn't said anything about it till now but an article published in NY times called this a historic victory for the Mujahideen. Could you please tell us about the operation and how Mujahideen were able to cause such damage to the enemy?

Mauli Najeebullah Haqqani: Just like you mentioned, this event really was a historic win due thanks to Allah's help. Recently Mujahideen focused their operations on Jalalabad-Kabul main highway which goes through Laghman. Mujahideen targeted the enemy convoys and patrols which caused the enemy great distress. So the enemy decided to carry out an operation in Badpeeh, where Mujahideen have a big presence. Another important point about this

event was that, American's wanted to test their puppets in order to see if they could carry out a successful operation about which the puppet regime boasted. So the enemy entered the area on Tuesday, 3rd August 2010 after fully equipping themselves with about 41 armored and other military vehicles which had more than 350 ANA puppets. When the enemy entered the area in the morning, Mujahideen contacted me and said that they do not have enough supplies to combat them but did so anyway only trusting in the help of Allah. This fierce battle started in the morning and lasted until dusk when the enemy was defeated. Out of the 41 vehicles, only 18 were left which the Mujahideen took as war booty. Similarly 75 puppets were left on the battle field after being killed and 25 others were taken as captives but in all this fighting, only 2 of our brothers were Martyred. The Mujahideen who participated in the battle say that they saw the help of Allah SWT because with all the military might of the enemy and the weak state of Mujahideen, they still won the battle and Allah made that day so cloudy that the enemy airpower was rendered useless. Earlier Mujahideen had complained about not having enough supplies and weapons but by the end, they had so many that they asked me what to do with them. So Allah SWT clearly showed them his help and gave them victory after fear of a defeat.

Alemarah: How are other operations going in the other areas?

Mauli Najeebullah Haqqani: Alhamdulillah operations are going forward very fast in the areas. Jalalabad-Kabul main highway is always targeted and enemy check posts are also coming under constant assaults. Similarly enemy patrols come under IED attacks and their bases under missile strikes in Alishange. Enemy check posts and bases in Laghman provincial capital are also coming under Mujahideen assaults which you might have heard about through media.

Alemarah: How is the locals help with Mujahideen in Laghman?

Mauli Najeebullah Haqqani: The locals of Laghman are a Mujahid people. They have given us places in their homes. The reason why the enemy cannot weaken the Mujahideen resistance is a clear manifestation of their help and we are thankful of Allah for this and are show immense pride in the help of locals.

Alemarah: To end, as a Commander of Laghman province, do you have a message to the Afghan population, similarly to Mujahideen and the enemy as well in which we can help to reach your voice?

Mauli Najeebullah Haqqani:

To Mujahideen: Make your focus only to Allah's and make his happiness your first and foremost goal. Listen and obey your leaders and treat the people with a good manner. Be very patient with the Muslims population and forgive them for we need their help because any Islamic movement which has succeeded or is succeeding, it's due to the help of the local Muslims.

To the Mujahid Afghan people: Do not be fooled by the so called democracy and nation building lies of the enemy. Just like how you have given a place to the Mujahideen in your breasts, similarly help out physically and financially.

To the puppet ANA: Do not fight for the wrong group who only use you as for their stingy goals. Think. We captured 25 of your ANA puppets and asked the invaders for a swap of prisoners but to our surprise, they did not only want to do a prisoner swap but told us to kill the ones we have. But we released them as a favor. You must know that with all the sacrifices you make, you still don't have any importance to your masters.

To the invaders: You should look at the realities, read the history of this nation and then revisit your strategy. They should know that with all their might they will not succeed in subduing us through your illegitimate invasion. Today or tomorrow you will be forced to flee just like your predecessors the USSR. And a message to their leaders is, to stop wasting your money on failed operations here and instead use that money on your people and their development. Leave us alone so we can live in peace under Islam Sharia.

Interview With The Administrator For The Islamic Emirate Website, Esteemed Brother Abdul Sattar Maiwand

12 December 2010

Dear Readers!

In the series of al-Somood interviews with officials of the Emirates, we present to you this time an exclusive interview about the Jihadist media activities of the Islamic Emirate with esteemed brother Abdul Sattar Maiwand, who is responsible for the al-Emarah website on the global internet. We invite you to read it.

Al-Somood: To begin, we wish you to provide the readers of al-Somood with a summary of the media activities of the Islamic Emirate.

Maiwand: Praise be to Allah. Blessings and peace be upon the Messenger of Allah, and upon his family, his companions and all those who followed him. Thereafter: Among other committees, the Islamic Emirates established a special Media Committee to spread (news) about Jihadist activities in different fields and chase away the voice of the unjust enemy who, before the entire world, was distorting the image of the Jihad in Afghanistan and was claiming false victories here and there over the Mujahideen. Need called for the existence of a media agency to take responsibility for the Mujahideen in Afghanistan; speaking on behalf of the Islamic Emirate; delivering news of its victories on the battlefield to its friends and to the world; exposing the falsehood of its enemies and their media; responding to the claims and its daily changing deceptions; and delivering to the world the voice of truth and jihad and its point of view about current Jihadist events in the land of Afghanistan. Wars today cannot be won without media. (Media) is directed to the heart rather than the body. The weapon is directed to the body. If the heart is defeated the battle is won and the body is defeated. In the beginning, with the fall of the Islamic Emirate, the enemy thought that the field was completely open before them, and they spread their lies and falsehoods that they had destroyed the Islamic Emirate and its Mujahideen and that their victory in the land of Afghanistan was complete. All of their resources, especially their media were directed towards changing the ideas of Afghans and injecting defeatist thought into them and instilling in them a petrifying fear of the new occupiers. First through the grace of Allah, *subhanahu wa ta'ala*, then through the victories of the Mujahideen and their rightly guided leadership; and after defeats were inflicted on the enemy on the field of battle, a media committee was established to contest with the enemy in the (media) field. Therefore, the media ranks of the Islamic Emirate were re-formed under a special committee that reflects the tangible reality on the ground in Afghanistan. Among its most important accomplishments in the beginning period was the inauguration of the Islamic Emirate website under the name

“Voice of Jihad”. The website specializes in conveying field reports from the combat zones and publishing the statements of the Ameer ul-Momineen and the statements of the Command Shura Council about different issues pertaining to Jihad, in addition to articles and official analysis. They have many sections: for example there’s an Islam page, a magazines page, and a page for films produced by official studios. We also print magazines and statements and distribute them in popular circles at home and abroad. Additionally, we produce different publications and regulations and distribute them among the Mujahideen. There is also a “Voice of Shari’ah” that broadcasts news and official statements day and night. The Media Committee has also appointed official spokesmen to speak in the name of the Islamic Emirate to local and global media regarding the course of affairs.

Al-Somood: How do you gather news and field reports from Afghanistan and publish them on the website?

Maiwand: Yes, through the grace of Allah *subhanahu wa ta’ala* the Committee employees correspondents in all the provinces of Afghanistan to cover news of events and prepare reports on them. They make every effort to follow news of operations in detail and keep abreast of developing situations, and they send reliable and precise reports of ongoing operations immediately to the official spokesmen of the Emirate; Zabihullah Mujahid and Qari Yusuf, who review the news and then send it to the news department of the website after an in-depth scrutiny and examination.

Al-Somood: News, official statements and analysis are published simultaneously or in near time in five different languages. How is that so?

Maiwand: Yes, as you were so kind (to mention), news and other things are published in five different languages almost simultaneously. These include local languages such as Pashtu and Farsi as well as Urdu, Arabic and English. The website first publishes new and other media in Pashtu and after that, translates it directly into these other languages and publishes in their special sections.

Al-Somood: Are there ways to publish the news other than through the al-Emarah website?

Maiwand: Yes brother, we send the news to journalists and global news agencies immediately after it occurs and is posted on the website. We have many email lists to which we distribute news and official statements. These lists include journalists and others concerned with the issue of Afghanistan. We are also active on Facebook and Twitter where we publish the news every day and reach thousands of people. We also daily send news via cell phone text messages to many people.

Al-Somood: Could you please clarify that last sentence? How do you send news to many people via cell phone?

Maiwand: The news that is posted on the website is converted to SMS messages and sent to a number of people, who send it to other people. Each of them sends it to his acquaintances inside and outside Afghanistan and so a chain of dissemination begins. Each one tries to spread the news more and more. We have seen many people requesting their friends and relatives to forward the news they receive to at least 20 other people, etc...and so this news becomes widely circulated in popular circles. Through the grace of Allah, we have seen many among the general populace rejoice when news reaches them of the victories of the Mujahideen over their enemies

Al-Somood: Could you please explain for us some of the other activities of the Media Committee beyond the Islamic Emirate website?

Maiwand: The Media Committee has other media pulpits including: the Jihadi Studio which publishes Mujahideen operations in live video. Through the grace of Allah Almighty it has created some good products in this field. In addition to publishing live images of Jihad and battles, the Jihadi Studio also produces films to preach (*da’wa*) and reform with the goal of illuminating the minds of the Mujahideen and making them ideologically aware. These films have so far had a good impact in Mujahideen circles. There is also a Pashtu-language radio broadcast called “Voice of Shari’ah”, which is transmitted via the internet. It broadcasts daily news and reports, political commentary, Islamic and Jihadi nasheeds which have a direct impact in raising the morale of the Mujahideen. The Voice of Shari’ah programs are broadcast during morning and evening periods. In addition to audio and video information there is print information in Arabic, Pashtu and Farsi languages. The print media is represented by the monthly magazine *al-Somood* (Steadfastness) in Arabic; and the *Shahamat* (Gallantry), *Sarrak* (Gleam of Light) and *Morgil* (The Trench) magazines in Pashtu and Farsi languages, also published monthly. The al-Somood magazine, of which staff you are a member has for five years provided a true picture of the Islamic Jihad and hot events occurring on the Afghan battlefield to the Islamic and Arab world. It is concerned with publishing articles, political analysis and news reports, in addition to comprehensive statistics of monthly Mujahideen operations and their impact, in addition to the series “Our Heroic Martyrs” to introduce people to the Mujahideen military commanders who were killed *fi saheel Allah ta’ala*. As for the magazines, Shahamat and Shararak, they have been published for seven years in the local languages Pashtu and Farsi. They have many readers in educated circles, especially among madrasa and university students. The Jihadist articles published in those magazines have had a tangible impact within these circles. As for the Morgil magazine, it is dedicated to publishing news of the battles, reports of enemy crimes, statistics of enemy losses in lives and equipment and related issues. Its annual archive is considered the most reliable Jihadist source to determine enemy losses. All of these media capabilities are presented via the Islamic Emirate website on the worldwide web and everyone can view them on the website.

Al-Somood: How do you find specialized staff to carry out these media activities?

Maiwand: When the Mujahideen enjoy the presence of people among them whom, first through the grace of Allah Almighty then through their capability and military experience, have been able to defeat NATO generals of great experience and expertise, it also is easy for them to conduct these media activities with their proficiency in the media field. Since the Media Jihad has today become one of its most important responsibilities, the Islamic Emirate has not neglected to prepare specialized media cadres. Rather it has, in the fields of Jihad, prepared Mujahideen media workers who resist the enemy in the media field just like their brother fighters resist them in the military field. Yes, I say with full confidence that with our simple and limited means, we have, through the grace of Allah *subhanahu wa ta’ala*, defeated the enemy in the media field. The enemy has been unable to redress this defeat despite the existence of their advanced means and specialist cadre and their vast expenditure of funds in this field. It is possible for everyone throughout the world to view all of our publications on the internet. Indeed, all the workers in the Karzai government who have internet access in their offices, universities and government administrations and even those who work in the American military and political administration view our publications and are affected by them. There are many residents of Kabul city who listen to the Voice of Shari’ah programs via the internet and inform us by email of how they were favorably impressed by those programs. They tell us that hearing the nasheed *la Allah ila Allah* recalls to their minds memories of the rule of the Islamic Emirate of Afghanistan. Even though the Americans, NATO troops and the security forces of the lackey government all exert great efforts to impede the activities of the Islamic Emirate, it frequently occurs that members of families from the upper class in the Karzai administration display their sympathy with the Mujahideen. The Americans also admit that the Islamic Emirate has defeated them in the media field. This confession was made in an article published on

the 22nd of May last year in the well-known American magazine Foreign Policy entitled "*Losing the Media War to the Taliban*". The author of the article was the well-known American writer Robert Haddick who mentioned details of Taliban media activities and their media superiority over the Americans. The author advised his people, saying "*In their media battle against the Taliban, the Americans must use more effective methods and tactics, because the Taliban have won the media war using existing methods*". A report by the American Council of Foreign Relations corroborated Taliban media superiority over the Americans in the media field. The report mentioned one reason the Taliban have moved ahead of the Americans in the media field is that they do not wait for appointed dates to publish news of events, but publish them as soon as they occur. The progress of the Islamic Emirate and its media superiority over the Americans has become today's news to the Western press, which has begun to write articles and commentary about it everywhere. Regarding Taliban excellence in this field, Michael Doran, the former American deputy secretary of defense, said that "*The Taliban have great skill in directing their media activities and are very quick to publish news: if any attack is conducted against our forces news is being published 26 minutes later on the global satellite networks, taking its place in the breaking news tickers for most of the global satellite networks like al-Jazeera, B.B.C. and C.N.N.*". He added, saying: "*The Taliban are not only quick to publish news, rather they are also fortunate in the precision and organization in their media work. They translate news of all their military operations as soon as it comes in from Pashtu and Farsi to Arabic and English and it is immediately published on their websites and their online radio 'Voice of Shari'ah'.*" Michael Doran continues by advising the Americans "*It is necessary for the Americans to increase the capabilities of their soldiers in blocking Taliban media activities by granting them more authorities and limiting Taliban media activities by strengthening their (own) media channels. They must also close down all Taliban websites on the internet.*" [The Council of Foreign Relations, May 2009] General Azimi, spokesman for the Ministry of Defense in the Karzai administration, acknowledged in an interview with Radio Free Europe last year during the battle of Marjah that the Mujahideen media activities were stronger and more successful than those of the government.

Al-Somood: How do you explain the media superiority of the Mujahideen?

Maiwand: The sole factor in the media superiority of the Mujahideen is that they perform this work as undertaking a Jihadist responsibility and not as a job performed in return for a salary like others do. According to the moral contract to which they have committed themselves, they make sacrifices to the point of death for the sake of the success of this Jihadist labor. They endure hardships and regard success in performing this responsibility as a wish of their worldly life. Because of the sincerity, sacrifice and zeal of the Mujahideen, Allah blesses their efforts and grants them success. This blessing and success granted by Allah is acknowledged by the enemy also, and this grace has been witnessed by the enemies.

Al-Somood: What are the problems you encounter in performing your media responsibilities?

Maiwand: The path of Jihad is full of trials and difficulties, but the Mujahid accepts them with good will to please Allah Almighty and elevate His Word. These hardships are born *fi sabeel Allah ta'ala* are a source of pride and a sign of the righteousness of His path. We face many material problems and problems with media mean; and there are security problems; and there is a scarcity of material resources. They are, however, easy to bear for the sake of achieving a noble goal and we are proud of this. The means we possess are very paltry when compared to the means of the enemy. Moreover, we also face in this field a shameless enemy who is not bound by any humane or moral obligations. They speak excessively about slogans of freedom of expression and speech, but they do not recognize freedom of speech which runs contrary to their colonialist interests. In addition to that, they lie prolifically in their media. If 20 of their soldiers are killed, they announce the death of only one and only if they are unable to hide the news. If 20 of their people are wounded, they admit that only one was wounded and say the wounds are slight and that he returned to his job after his wounds were bandaged and treated. If one of their aircraft is shot down by the fire of Mujahideen or is set alight in the air, they hide the news if they can. If they can't hide the news, they state that it was an emergency landing. When they arrest local citizens during night raids they claim that they have seized armed Mujahideen. This is their custom in all their media publications. As for our media, despite our commitment to publishing the truth, the enemy attacks our websites on the internet, and closes or sabotages them. They threaten the companies which host our websites and send them warnings. "*Their intention is to extinguish Allah's light (by blowing) with their mouths: But Allah will complete (the revelation of) His light, even though the Unbelievers may detest (it).*" (Al-Saff: 8) Even though they commit all of these crimes, we are, through the grace of Allah Almighty, able to continue our Jihadist publications. We present to the world the victories of the Mujahideen and the defeats of the enemy. We show the world documented evidence of the defeats of the Americans and their allies in Afghanistan. We have had good successes in this field despite the many problems we face. Praise be to Allah for that.

Al-Somood: We thank you for giving us this opportunity and for answering our questions. We beseech Allah Almighty to grant you more success in all your Jihadist activities. Ameen

Maiwand: A hundred thanks to you as well

Translated From Al-Somood Monthly Magazine Issue 55

Interview with the spokesperson of Islamic Emirate Zabihullah Mujahid regarding Afghanistan's current political and military situation.

23 February 2011

Question: Mr. Mujahid, after months of disputes, Hamid Karzai finally announced the so called 'peoples congregation' (Jargah), could you please share with us your view regarding it?

Zabihullah Mujahid: Yes, in Afghanistan the foreign invaders and their puppets, like before, are trying to put into practice various processes in order to cover up the invasion of Afghanistan, and enforce their 'prescription' of so called democracy. Once again they repeated their misleading efforts and conducted parliamentary election. From the beginning Islamic Emirate considered this particular election as 'a demand and process set by foreigners'. The invaders covered the expenses of the election so that they can benefit from it. Through this 'show' of election, the invaders wanted to deceive the Afghan Nation and the world that they have achieved their objectives, and now there is a popular, elected government and parliament, hence no one has

the right to continue their struggle against the elected government. The foreigners believed that through such staged and corrupt elections they can easily put in place their purchased puppet individuals and appoint them in the fake parliament, through which they thought that they can continue their occupation and from such a parliament they will be able to easily get their hands on a long term strategic alliance contract. In addition to this the invaders also had the intentions of appointing in the parliament those individuals who do not believe in united Afghanistan. Through these puppets the foreign invaders will try on a high level to divide Afghanistan and cultivated mistrust amongst different ethnic groups. From the beginning Islamic Emirate had considered this process a struggle by foreign invaders and detrimental to the Afghan Nation and Muslims, and the results of this process reveal's the same truth about the invaders deceptive upcoming plans and efforts.

Question: United States of America, her allies and also United Nations had a warm welcoming response towards the parliamentary elections, how do you view their particular response?

Zabihullah Mujahid: I made it clear that the parliament in Kabul and the elections that were held are not conducted in order to serve the legislative needs of the country; instead it was part of invaders military strategy. As we know NATO is a military alliance, and it must be noticed that Rasmussen was compelling Hamid Karzai to bring about a new parliament, thus instead of government diplomats the ceremony of the new parliament was conducted by the military commanders of different countries which shows that the new parliament was a strategic military need of the American invading forces that ought to be completed. In reality the Americans want to use this parliament in order to fulfill their military strategy in the region. As far as The United Nation's warm welcoming of the new parliament is concerned, then it is apparent that the UN cannot take any step against America and that is a known fact.

Question: Do you think that new parliament will have any effect on the current situation in Afghanistan?

Zabihullah Mujahid: No not at all, because this parliament like the earlier ones is neither an Afghani parliament nor legitimate, most of its members are elected on the basis of ethnicity by the invaders and their puppets, so like the earlier parliaments, it will only be limited to pocketing salaries and will not have any evident effect on the current circumstances.

Question: Can you describe briefly the view of Islamic Emirate regarding this parliament?

Zabihullah Mujahid: Islamic Emirate of Afghanistan does not give any importance to the existence or absence of such parliaments; most of its members are accountable for crimes and corruption which is part of this puppet regime. We see the so called newly 'elected' parliament as a part of the continuous stage show, which the Americans want to benefit from by using it as propaganda in order to deceive the populace.

Question: Coming to other issues Mr.Mujahid, recently the American General Petraeus claimed that they have some evident progress in Afghanistan, how do you view these claims?

Zabihullah Mujahid: Yes we hear this propaganda circulating in the media which is very astonishing. Our nation witnesses that the invaders are under more pressure than ever before. From one side, despite of the increase in number of invading forces they are under continuous attacks of Mujahideen all over the country which results in high casualty on daily basis. From the other side, the invading forces particularly their leaders and army generals are under great political pressure of their country's general public, that despite of great expenses; enormous cost of life and public wealth, why have they not been able to fulfill their promises, which was to bring stability and a countable progress in Afghanistan. It is a known fact that the invaders have been defeated in Afghanistan, but they continue their propaganda through which they want to compel the world to believe in their so called progress in Afghanistan. As far as general Petraeus's claim is concerned, we have been following his claims from past couple of months which in reality are politically motivated. For instance, when Obama was preparing scenario of his yearly speech for the Nation, according to a report general Petraeus was obliged to make new claims of progress in Afghanistan which had no authenticity. These claims were only made so that Barack Obama can refer to it and mention them as a proof in his speech. Therefore, in order to know the current situation in Afghanistan and the fantasy of progress in Afghanistan, we can refer to the many surveys that were recently conducted by some media sources, for instance the survey that was conducted by Reuters News Agency at the expense of European Union exposes to some extent the fantasy of progress in Afghanistan.

According to a report by Reuters news agency, an European security firm which is responsible for the security of NGOs in Afghanistan has mentioned in their investigated report; that the claims made by the American military Generals about the military progress in Afghanistan is contradictory to the reality on the ground, according to report there is no doubt that in 2010 there was 2/3 increase in armed resistance compare to 2009, and in some northern provinces there is a threefold increase in armed resistance. Furthermore it is mentioned that the American president Barack Obama pointed towards the war in Afghanistan very differently, by saying that there was military progress on the ground and activities of Taliban have been limited in many parts of the country, whereas the progress that has been made is not secure enough and might fall back into the hands of Taliban. According to the report, the American general Mike Mullen's visit to Afghanistan one day after the publicizing of white House review of Afghan war strategy where the General claimed about the progress in Afghanistan, however these claims had clear motives behind it, which was to influence the views and thoughts of the American and European public, and to prepare the situation in Afghanistan prior to the withdrawal of their forces from Afghanistan. It is also mentioned in the report that in 2010 there was 64 percent increase in the attacks of Taliban. The above mentioned reports are according to a western media firm and I believe that if we make an even independent survey it will be more damaging to the invading forces.

Question: General Petraeus has been claiming for couple of months that they have detained or martyred majority of Mujahideen leaders in different parts of the country. Can you please give our readers some information about the reality of these incidents?

Zabihullah Mujahid: I can only say that our virtuous Jihad will indeed require sacrifice from us, and whether it be a leader or an ordinary Talib, sacrifice in this sacred path is our pride, and we believe that martyrdom for the sake of God Almighty is not death, but it is a life with dignity for us. However, as far as the enemy's claim of martyring or capturing alive of majority of our leaders, it is very far from reality, because we can see that day by day there is increase in our Jihadi activities, and our armed forces are more disciplined than ever before. We are countering the enemy and opening new Jihadi fronts, we occupy more and more territory day by day. This in itself is a proof, prays be to Allah there is no such grave harm caused to our Jihadi leadership, and God forbid if these claims were to be true then we wouldn't be having all these victories in the battlefields, and I believe that this is one-sided propaganda of our enemy, and right now there is totally an opposite situation on the ground, a general belief is that comparing to the previous years, this winter there are more attacks of Mujahideen, which unveils the fake propaganda of our enemy.

Question: Recently Karzai's government has been reported claiming that in some northern provinces a number of Mujahideen have surrendered to the government and the process is gaining momentum, can you please give us some information regarding it?

Zabihullah Mujahid: We believe that such claims are part of organized misleading propaganda. As a matter of fact even our enemy believes that the Jihad and resistance is gaining momentum in the north. So in order to reduce the resistance in north, the Kabul government with the help and guidance of foreign intelligence agencies are trying to introduce some warlords as Taliban who in fact have no connection with the Taliban, then through their propaganda they claim that the government have invited the so called Taliban and they have surrendered and are working with us now. We have always condemned such baseless reports, and we believe that these individuals are not Mujahideen but in fact they are planning against the Mujahideen. The puppet government in Kabul is trying to magnetize the audacious Mujahideen of north by means of money and governmental positions, but our enemy must comprehend that we have abandoned the short lived pleasures of this life for the sake of Allah and our Islam is more beloved to us than their money. Hence this propaganda is part of planned intelligence process and praise be to Allah, Mujahideen are fully aware of it and God willing our Mujahideen will not fall prey to such indecent attempts of our enemy.

Question: Recently in many different parts of Afghanistan the American forces are conducting unexpected raids during night and may be day time, and they consider these raids very effective. Are these tactics really that much effective?

Zabihullah Mujahid: Our Mujahideen are totally capable and are very experienced in prevention of any such raids, and they have been trained well enough to counter these tactics of our enemy, and also in numerous occasions the enemy had a number of casualties during the raid. However as far as the night raids are concerned, they are mostly conducted on ordinary populace on the basis of wrong information, and also sometimes these raids are conducted on religious schools and many students and Imams have been martyred and imprisoned. These brutal acts of the invaders will further add to the fury of our nation, so eventually more and more people will stand in the ranks of Mujahideen. Similarly the Soviets made the same mistake of agonizing our nation, which resulted in their defeat. Furthermore our nation sees these acts of the invaders as anti-Islamic and against the humanity, the invaders bomb our mosques, kill the religious imams and students or imprison and torture the innocent people without any trial, therefore our nation will continue to fulfill their responsibility of protecting this sacred land from their mischief.

Question: As you know that the enemy forces are recently targeting ordinary public properties in different parts of our country, for example cutting down of thousands of fruit bearing trees in Ghazni province's Band-e-Sarda area, and annihilation of many villages during Helmand and Kandahar operations. What do you think is the invaders objective behind it, and what have they earned so far from it?

Zabihullah Mujahid: We believe that we must take every possible step to protect the crops, dwellings, villages and markets of ordinary public, and no one has the right to destroy ordinary public possessions. As for the reasons behind these aggressions, firstly the human rights or other similar regulations are for some reason not applicable to our enemy although they consider themselves human rights preachers or activists. Secondly they want to take revenge from ordinary public, who are fulfilling their religious duties of supporting and standing with the Mujahideen. The foreigners are forcing and deliberately killing the ordinary public in order to stop them from siding with or supporting the Mujahideen, and they have pursued these failed attempts since ten long years and still they do not understand that at no price will Afghans accept the invasion of their country or live under foreign occupation, no matter how much atrocities they commit in Afghanistan. It will only shorten the time of their invasion and more people will join the ranks of Mujahideen as I mentioned earlier was the case during the Soviets invasion. We are very satisfied with the efforts and sacrifice of our brave nation and we consider stepping up in attacks and preparations against our enemy.

Question: In connection to the previous question, if I may ask about the general political and military situation of Afghanistan, we have noticed many differences and disagreement between the political and military leaders of western countries, to an extent that they keep on changing their view in a very short period of time and moreover they give contradictory speeches, what might be the main reason behind all this?

Zabihullah Mujahid: We believe that when the western invader countries were planning to invade Afghanistan, they had very significant objectives and they wanted to attain them through their longer stay in Afghanistan, which previously the west and specially America were competing on with the Soviet Union. Fortunately, they were faced with distressing resistance and from 10 long years they have been trapped in a ruinous war, as a result the coalition countries particularly America are suffering a terrible economic depression. On the other hand, now they are lost what I would call another 'upsetting depression', which is; how to pull out from this long-lasting, and 'patience consuming' war which was started by America, in such a manner that Her (America) global trust and political authority remains established. Furthermore the western 'unaware' public is becoming more sensitive to the continuation of war; therefore it is very obvious that the ordinary public will recognize the ongoing lies of their country's leadership, and certainly the western politicians particularly the American politicians' remain wavering. They have many different views which results in contradictory changes on daily basis. From another side, the lengthening of this particular war is getting more and more disturbing for the western leaders, because they have not been involved in very lengthy warfares. America has only been involved in the Vietnam War, where they had dreadful experiences and even up until today every American has a particular sense of fear and terror about it, hence in such a situation the invasion and overrunning of a war torn small Afghanistan which seemed very easy and almost costless to them, turned out to be very difficult and enormously expensive. So, of course they will have altering their views and changing their mind set on everyday basis. We see that today they speak against what they had spoken and done earlier, this all appears to be due to the intensive pressure of ongoing war which arises in non-Muslim and faithless societies.

Thanks a lot Mr. Mujahid for giving us your precious time despite of being very busy.

And thanks to you, may Allah make you successful.

Jihad Is The Reason For The World's Salvation And Especially The Islamic World

28 January 2011 By Fida'

Allah Almighty creates a reason for everything, whether for the existence or continuation of something or for its non-existence or disappearance. The Almighty is He who causes effects. When He wants to bring something into existence or remove it, He appoints a cause or causes for that. Two decades ago, the world witnessed, with the permission of Allah SwT; the world, and most especially the Islamic peoples, the salvation of the world from the great evil; the evil of the Soviets, who wanted to spread their control over the earth. To achieve this goal they attacked a country which had been crowned more than once with the medal of heroism in breaking tyrants, conquering the haughty and expelling evil transgressors. Their doom was sealed when they chose to attack this country.

To wit, they destroyed themselves! Yes, this great event confused the entire world which did not expect this occurrence, because this country did not have to its credit great discoveries, inventions and technologies. Yet, Allah SwT willed to make the sacrifices of this proud and zealous people the cause for the liberation of dozens of countries occupied by that tyrant. Additionally, it became a cause for removing their occupation of other Muslim lands, especially those countries neighboring Afghanistan. More important than all of this is that America – which has committed the same crime as the Soviets against this proud and zealous people – was itself saved by virtue of the Jihad of the Afghans – from those misfortunes which were expected to befall it – as if Allah SwT desired for those misfortunes to later befall it at the hands of the Afghans themselves and they therefore decided to stand by the side of Afghan Muslims, not because they loved the Afghans and the Muslims or because they wished them well. Rather, they sought after their own self-interest. It was therefore reasonable for the world to thank the Afghans.

Yet, unfortunately, they were ungrateful for the favor with an ingratitude that never occurs to anyone's mind! After the defeat of the Russians, who left dragging their tails in shame and failure, some of those countries, which Allah had fated to continue to exist by virtue of the Jihad of the Afghans, toyed with the accomplishments of that great people. Indeed, they had a main role in creating problems and afflictions never before witnessed in the history of the country. Today, the same tragedy is being replayed, but at the hands of another tyrant. *Shaytan* has enticed this (tyrant) into attacking that people who were the reason he still existed on the face of the earth, forgetting that favor that deserved thanks and a good turn; and not ingratitude and ungraciousness. Indeed, Allah SwT has here ordained the same fate He ordained for the Soviet attack on Afghanistan, which is the salvation of the world and especially the Islamic world from the grip of a tyrannical transgressor.

America wanted, as did its contemporary Soviet Union, to extend its control effectively over the entire world, and re-make it in its own image. Its wealth and its power seduced it into dreaming this dream but achieving this disgraceful dream was completely unreasonable – it is a morass from which it will be happy to escape half alive! Thus, we see today that America has retreated from all its goals – and more – for the sake of which it plunged into the unjust war, the certitude of which was a matter on which no two disagreed! Neither has it been able to take hold of the matter they thought they had a grip on from one day to the next, nor to obtain a guarantee for the security of its people! Rather their terror increases day after day and now it (America) wants to retain its self-respect and nothing more – and this is its great victory, but will it be able to do even that? They are like one who has attacked a person unjustly. When that person grabs them and shakes them, they say to him: "leave me alone and I will leave you alone!" It is impossible for it now to be seduced by its dream of arrogance, aggrandizement and tyranny, or to spread its influence in the lands of others, or extend its control there. Rather its most pressing concern is to preserve what its forefathers gained! Because of this the entire world and especially the Islamic world is indebted to the Afghan Jihad. Because of this Jihad, the snake has become preoccupied with itself rather than thinking about swallowing them. When Afghanistan has become a thorn in its throat it cannot advance and cannot return back!

The world has been saved from American aggression and barbarism in all fields: political, economic and security. America had wanted to spread its influence in Eurasia, half of which includes the Islamic countries, then extend their political and economic control over them, and take their affairs firmly in hand. If they were able to do that, then no one on the other continents could stand and face them. But Allah desired other than what America desired. If they had been able – Allah forbid – to realize their initial goals then subsequently it would have been very easy to swallow and digest the Islamic world. This was a turn of events for which it waited impatiently and for which sake it spared no expense. But through the grace of Allah first and then through the sacrifices of that proud and zealous people, it was not able to realize its dream. Rather, the entire Islamic Ummah was saved from those plots which those iniquitous hands wove in the world of fantasy.

Among the most prominent gains made by the Afghan Jihad for the Islamic Ummah which can be indicated here is the protection of the Holy Quran from fire and abuse, four months ago at the hands of a lunatic American: that vile minister who intended to burn a copy of the Glorious Quran in revenge for the events of September 11. Yes, what happened there with that idiotic man was not personal or unique to him, rather it was the voice of many of them and evidence was that they did not refrain from committing that crime out of respect for the sacred things of others or for human dignity! Rather, it was to preserve their bravado and prestige by protecting the lives of their soldiers deployed on the field of battle and to be precise; to avoid receiving the combat strikes of the Mujahideen of the Islamic Emirate! Which they were certain to receive if they did not take that crazy man into their foolish hands! The commander in chief of the NATO Alliance, David Petraeus and others warned of the consequences of that action and stated that it would cause calamities for their soldiers present in Afghanistan. The lunatic minister therefore had to reconsider his plan and back down. He in his turn was more concerned with the defeat of his co-religionists and kinsmen, than in venting his anger against Muslims by burning the Noble Quran as if he considered – if the expression is apt – that the cost of this heinous act would outweigh its benefit. Here we must draw attention to certain points:

1. There are no doubt in the Islamic Ummah has many ideological, political and religious parties; and there are undoubtedly in Islamic countries (many) regimes that rule them – and there are more than 50 governments! But neither America or NATO or its commander in chief were troubled and they did not say that (these) regimes and rulers of Islamic countries or their varied and diverse parties and movements would cause problems for America or weaken it if that great crime were committed! For one reason: they had cast Jihad behind their backs!

2. Then why do the Americans fear the Mujahideen? What that commander stated means that those different parties and diverse movements in their great number and those governments armed to the teeth with even nuclear weapons(!) did not and will not be considered to constitute a threat to them! There is

therefore no need to warn against them! As if they understood well that the Mujahideen were those who would avenge their sacred things. This is a matter that truly conforms to reality and fact. This is the reason behind infidel attacks launched against Jihad and its people over the course of time in all corners of the earth and in all rounds they struggle, and especially in this modern era. They are convinced that Jihad is the apex of the pinnacle of Islam, as was said by that leader of the Mujahideen, Muhammad ibn Abdullah (SAW). Meaning Islam is protected by Jihad only! The enemy is therefore terrified of Jihad and the Mujahideen, and tries with all the capabilities he possesses to mar the image of Jihad and the Mujahideen one way or another.

3. The commander's statement that the burning of the Noble Quran would cause problems for his soldiers in Afghanistan only(!) - although Jihad continues through the grace of Allah SwT in other countries as well - indicates that the occupiers have learned through living in the hills and rugged mountains of Afghanistan over the past nine years; the message that the soldiers of the Islamic Emirate are at the forefront of the legacy of Islam, they are its most honorable and worthy men in the modern age. They are therefore careful of them, and try to deceive them with great deceptions and lay traps for them by other methods. Even though the Emirate does not possess the means and weapons of terror and fright, and weapons that would penetrate to the hearts of the enemy, Allah has placed terror in their hearts; terror because the Mujahideen follow in the steps of the Sayyid al-Mursaleen, (SAW) who said, as narrated by Bukhari in his Sahih:

"I had been given five things which were not given to anyone else before me. Allah made me victorious through awe for the distance of one month's journey..."

Today the world witnesses with its own eyes the truth of this Hadith as a palpable reality. America with all the armies and technology in its possession is frightened of a small group that cannot be compared with it in terms of means and equipment in any field or situation!

4. The thinking of the occupiers has changed towards the Emirate. They used to assume that officials and leadership of the Emirate took matters simply and naively, and they were merely seekers of religious knowledge, knowing nothing or very little of the politics of the world. It was therefore easy to dupe or play with them! But now, after tasting the bitterness of the war into which they plunged unjustly and aggressively, and after adopting a policy of shock and awe more than once, they understand that those of whom they thought so little are men! These men have stood in their face as an impassable barrier when those who thought they were brave and heroic surrendered. They were singing the praises of our Lord when all tongues were praising America.

In sum, the entire world, but especially the Islamic world and the countries neighboring Afghanistan, must thank Afghanistan for this great and historic accomplishment in helping them strike an enemy which was harming them more than it was harming the Islamic Emirate, and for extending to them aid in establishing an Islamic regime. Because establishing a strong Islamic regime in Afghanistan is to the interest of all. If Afghanistan is the bridge joining the world's economy to Central Asia, and is indisputably the heart of Asia, then the well-being of the body (depends upon) the well-being of the heart. While the heart is sound, the body enjoys rest and ease. When the heart is fretful and disturbed, then undoubtedly the rest of the parts of the body does not enjoy tranquility and ease. To conclude, it is worth pointing out that the peoples of the Islamic Ummah played an important role in the past Jihad of the Afghans, and that is still the case today. For this they must undoubtedly be thanked.

Destruction of Trees Will not Turn American Defeat into Victory

2 February 2011

Addressing the inauguration ceremony of the fake and phony parliament on 26th January, Karzai, the Head of the Kabul stooge Administration brazenly defended American drive of cutting down thousands of trees in Ghazni province. This he said besides his other pro-American sycophant remarks. According to him, the Taliban have to be blamed for the destruction of the trees not the Americans because they ambush the Americans from there, firing at them. The Americans had no way except resorting to bombardment or cutting down trees and orchards. In short, Karzai was trying to convince that the Taliban and the Afghans should keep away from any action that harms the Americans. In another word, according to Karzai, the Americans have right to kill the Afghans in their own country, huts, fields and destroy their plantations.

If Karzai had reached the corridors of the presidential palace on the mandate of the Afghan people or if his parliament had been composed of pious and patriotic representatives, enjoying votes of the majority of the Afghans, then Karzai would not have delivered such a speech being fraught with anti-patriotic wordings and void of any qualms. Nor the members of the parliament would ever have listened to his imbalanced and partial address. It is obvious that Karzai was installed by the same elements whose every crime and atrocity he defends today, ironically in a broad day light. He acquiesces in giving right to his Master (the Americans) to destroy fields, orchards and plantations of the Afghans so that the Americans are not attacked or fired at, allegedly from behind them. Members of the Kabul parliament do not dare put up protest or raise voice against the anti-Afghan assertions of Karzai because they themselves reached the parliament after American consent and scrutiny, with provisions that they would never come in the way of American interests, nor oppose American occupation of Afghanistan and presence of their troops there.

Could there be any other proof clearer than this that Karzai was pointing to the parliamentary elections as being marred by fraud and rigging just hours before the inauguration of the parliament. He had constituted a special court to carry out investigation into the elections' fraud and assured about 300 failed candidates that he was not going to open the new parliament until and unless the special court unveils its findings and pass decisions thereabout. But when American ambassador in Kabul, Eikenberry, and American commander, Petreous decided that there should not be any more delay in the opening of the parliament, then Karzai left the failed candidates in Salam Khana mansion at the presidential palace. He promptly reverted from his previous stand, hurriedly racing to open the parliament.

In the eye of the Islamic Emirate of Afghanistan, Karzai's endeavor to entitle the foreign invading troops to cut down trees and instead, level the blame against the Mujahideen, only contributes to displaying his boot-licking mentality and of his parliament. Apart from this, it doesn't deliver any message!

The Afghans know, the invading troops do wipe out whole villages and localities with impunity on mere allegations and pretexts whenever they intent to do so. They kill old men, children, women and old women. In their eyes, destruction of orchards, fields and standing plantations is not a crime!

If Karzai think that he will terrorize the Afghan people by inculcating into their minds that the Americans would destroy orchards and fields unless you do not abandon support of the Taliban. We think this devilish play by Karzai and the Americans will only lead to creating more hatred and resentments among the Afghans against the invaders and their supporters. Nothing else it will yield, apart from this. The Afghans are ready to defend their country and religious values even at the price of their lives, let alone sacrificing their properties and wealth.

A Brief Glance At The Jihadist Situation In Paktika Province

30 January 2011 By Isma'il al-Suhayli

Geographic Situation: Paktika Province is located in the southeast of Afghanistan and is bordered by Paktia and Khost provinces to the east; Ghazni to the north; Zabul to the west and the Waziristan region to the south. 393,800 people live in the province, the capital of which is the city of Sharan. It is situated 2118 meters above sea level. (Paktika) was separated from greater Paktia and is composed of 23 districts: Mata Khan, Yosuf Khel, Yahya Khel, Omna, Sarawda, Zarghun Shahr, Jani Khel, Gomal, Sarobi, Urgun, Ziruk, Nika, Dila, Khushamand, Waza Khwa, Terwa, Barmal, Gayan, Kherkut, Remami, Yek Khel and Jarbaran. The life of the people in Paktika province is a tribal life like the rest of the Pashtun tribes, characterized by religiousness, hospitality, patience, forbearance, respect for their chiefs and honor for scholars.

Educational Situation: The continuous wars in Afghanistan have impacted all aspects of life. The educational aspect has been greatly damaged and the residents of Paktika have been denied the blessings of education. There are undoubtedly causes for this deprivation, at the forefront of which is the foreign occupation which has left its negative impression on the Afghan people, especially the people of Paktika province. Paktika province was one of the main battlefronts during the Soviet occupation and remains in the front line of fire in confronting the Crusaders. The residents of Paktika still defend Islam and its people with self-sacrifice and devotion as they break the backs of the tyrannical aggressors. Due to their death-defying defense and heroic stand, the haughty aggressors destroy their schools by their continuous shelling of villages and their barbarous campaigns. Because of this, the educational infrastructure is being demolished and the people of this province are denied their right to an education.

Health Situation: Undoubtedly whenever a country is afflicted by the flames of battle, there is a detrimental impact on and degeneration in the basic necessities of people's life. Public health is one of those necessities (of life) that has been greatly damaged in Afghanistan. The health situation in Paktika province is very low. Some Arab charitable foundations used to be concerned with the health situation in Paktika province but, after the American occupation, all projects connected to the health situation in the region collapsed and matters went from bad to worse. A routine illness that used to be treated immediately, now, because of the lack suitable clinics for treatment, become chronic illnesses. The situation is aggravated by the fact that Paktika province lacks a working hospital and a single specialist who can treat these routine illnesses!!!

The Role of the People of Paktika in Confronting the Crusader Occupation: The people of Paktika province, as mentioned before, are a prohibitive barrier in confronting the occupiers, always conducting their Jihad to defend their religion. The pages of the history of Afghanistan bear (the stories of) the heroes of Paktika who confronted both the English and Russian occupation. After the American occupation of Afghanistan and the maligning of our Islamic values, Paktika was among the first provinces to declare Jihad against the American forces. The famed Shahi Kut mountains in Pakistan witnessed one of the epic battles in the land of Afghanistan under the leadership of the Shaheed Saif al-Rahman Mansour, may Allah have mercy on him. This extraordinary commander began his campaign against American forces, taking the Shah-i Kut mountains as a base to launch his Jihadist operations and reminded the occupiers of the black days of Vietnam. From the epic battle of the Shah-i Kut mountains till this day, Paktika province has been a lofty fortress of Jihad. The sacrifices of its people are always increasing. The people of this proud province are determined to continue their Jihad until Afghanistan is liberated from the filth of the Crusaders and the banner of Islam flutters in its sky!

Paktika province is one of the provinces in which the Mujahideen were able to kidnap an American soldier from inside an American military base in broad daylight and transport him to a secure location. This demonstrates the cooperation of the people of Paktika and their standing by the side of their Mujahideen brothers because such an operation cannot be conducted without the cooperation of the local people. Paktika province is considered one of the most important bases of Jihad in the southern regions and the operations of the Mujahideen in this province are conducted with the cooperation of its residents. Its zealous people stand in the ranks of Jihad in confronting the occupiers and their lackeys. For this cause, they, like the rest of the people in the other provinces of Afghanistan, offer the greatest examples of heroism and sacrifices.

This year, Paktika province, in comparison to neighboring provinces, offered many martyrs, may Allah Almighty accept them. Yet, Jihadist operations have not ceased. Rather, they are on the continuous increase. In each of its districts, the Mujahideen launch their attacks on enemy bases. The enemy has tried his sword (against them) time and time again but they remain nothing but a shamed loser, bearing enormous losses in lives and equipment. The martyrdom-seeking military operation which was recently carried out by nine Mujahideen of the Islamic Emirate against a border base in the Urgun directorate resulted in the destruction of almost fifty infidel occupiers, is the best evidence of what we said. The pace of Mujahideen operations against the supply convoys of the occupation forces is continuously on the increase. The people of Paktika have not, and will not permit these military convoys to cross the lands of Paktika in peace! They lie in ambush for them and offer themselves; their wealth and their sons as a sacrifice for the Deen of Allah *Azza wa Jalla* and will not let the filthy feet of the occupiers tread on their lands. Despite all the efforts of the enemy to control Paktika province and annihilate the Mujahideen, the Mujahideen, through the grace of the All-powerful and Omnipotent, have liberated a large area of this province from the filth of occupations and its lackeys. The flag of the Islamic Emirate flutters in the sky over 85% of the lands of Paktika, praise be to Allah. The occupiers and their lackeys have become besieged in their bases and even the areas adjacent to these bases are under the control of the Mujahideen.

Most of the occupiers in this province are American, but there are also some soldiers belonging to other countries who work on American bases under the direct supervision of the Americans. The number of occupiers is around 10,000 soldiers. The presence of this huge number of occupiers armed to the teeth with the most modern and destructive of weapons has not had a negative impact on the morale of the Mujahideen. Rather, the morale of the Mujahideen is high, because it is based on lofty principles and their ardor built upon true and passionate sentiments. Indeed, the Mujahideen rejoice in this great number of occupiers because military targets have therefore spread out and increased.

Because of his inability to destroy the Jihadist movement in the region, the cowardly enemy has resorted to base methods in targeting the people; destroying their houses and raiding their homes at night in order to take their revenge against the Mujahideen and spread a climate of fear and terror in the province. This, however, has no effect on the morale of the people of the province and strong cooperation in the cause of Jihad. Rather, this barbarism makes them more committed to the Mujahideen and ignites in them the spirit of vengeance and retribution against the occupiers and their cowardly agents. The increase in Mujahideen operations in this province and in their campaigns there is evidence of this reality. Indeed, because of these operations, the Paktika theater has become oppressive for the occupiers. Praise be to Allah, first and finally.

American Senators Admit, More Troops Mean More Casualties

9 February 2011

John Kerry, Chairman, American Congress' Foreign Relation Committee, says he does not agree with troops surge strategy which is aimed at sending more troops to Afghanistan. He says, the surge failed to end the war or turn the tide. Now it has been proved that increase in troops is accompanied by casualties proportionately. The American daily *The Boston Globe* in its recent report has quoted John Kerry as saying that he had come to the conclusion that the war in Afghanistan must be reviewed anew rather than focusing on reinforcement.

It should be mentioned that previously John Kerry, agreed with the troops surge, supporting the strategy. He says all factors leading to American troops failure to defeat Taliban or weaken them, must be considered once more. John Kerry is a senior politician of the American ruling democratic party. His assertions reflect that the war of Afghanistan has made the Western rulers and the European people exhausted and disappointed. This is in addition to the despondency being observed among the general masses and the American people. John Kerry, an eminent politician of the ruling party, concedes this reality that the war of Afghanistan has seen no spectacular advancement. Moreover, the Mujahideen have not been weakened, even in the near future, no vista of hope is seen to point to an impending military gain.

Trailing the blaze, John Kerry has called on the Administration to be cautious and not to send extra troops to Afghanistan as it will yield loss rather than gain. The Taliban are combat-hardened people. The more, there are troops, the more they will be capable to inflict casualties on them. A few days ago, before the assertions made by John Kerry, another military officer, the Australian defense ministry's forces chief showed his concern over the growing casualties of troops of that country. He disclosed that usually they do not reveal identities of troops killed in combat unless the families get inkling of their death. He adds the reason for their not revealing the identities is because of their fear that it might spark up uprising in Australia. Thus the people's opposition to the war will increase.

With an eye to the assertions made by the American and Australian rulers, observers believe that the American and Western rulers are at a loss to justify the war of Afghanistan to their people and lessen their negative view as regards it. This is because the American and Western claims have already proved futile which said that they were fighting those elements in Afghanistan who want to carry out subversive activities in America or target people there. The Western and the American people know that the war in Afghanistan started on mere pretexts and has no legitimacy. Had there been any rationale for justification of this war, the Afghan people would have supported the current war. They would not have stood by the Mujahideen side by side.

It is now crystal clear that the resistance against the foreign troops has evolved into a national resistance movement and a popular uprising. This uprising will continue until the Americans and Westerners put an end to this fake and phony war and pull out their troops.

What Will Preserve American Dignity?

23 February 2011

A famous American daily, *The Washington Post*, has tried to find an answer to the above-mentioned question in its latest analysis. It says, the American dignity and extrication does not lie in Obama's Administration's covetous dream to keep occupation of Afghanistan unrelentingly and get billions of dollars approved from the Senate. However, the solution is the other way round. Americans should hammer out an exit plan that would make American troops pull-out feasible and end the war in Afghanistan. The proposition pinpoints some of the hard facts. According to *The Washington Post*, the Americans have no other alternative except withdrawal of their troops from Afghanistan which would preserve their dignity. The military situation in Afghanistan has come to a head that the (American) soldiers do not dare come out of their barracks and military bases. Because in that case, they face a specter appearing from underneath their feet that engulf them along with their tanks and equipments, sending them to a permanent annihilation or if they manage to go a head a few meters, they confront Mujahideen who lie in wait for them. Then they cry and beseech for help through their wireless messages that even the brass at Pentagon and Bagram hear their cries. But by then, it is too late and the Mujahideen have completed their missions, making short work of many of them.

The subsequent callous bombardment by helicopters flying from Bagram does not benefit them either. The blind air force targets the common and defenseless Afghans including women, children and their residential houses through bestial bombardment to avenge themselves. The recent gruesome event in Ghazi Abad of Kunar province is a good example on hand. More than 70 commoners were killed as a result of the American bombardment. Still it is winter now and Afghanistan is snow clad. This makes launching attacks and procuring logistics very challenging. However, when the snow melts away, then what the Americans and their surrogates think that, with the help of the Almighty Allah, what fate will be their lot?

Observers believe, in Afghanistan, the legs of the Obama's Administration have begun shaking. The reason is, in part, the lack of approval of the budget and expenditures allocated for the war in Afghanistan. The Republicans who have their overwhelming hold in the Senate following the American congressional elections say that more than \$450 billions have been spent on the war in Afghanistan. But with no result to benefit the people of America, nor any future vista of hope is seen about the war.

The Republican Senators put forward these issues as rationale to argue with Obama's Administration-- that they will further more face fiasco and humiliation in Afghanistan; resultantly, the Democrats will lose favor with the people of America. On our own part, we believe that America has lost her chance of success at the battle fields. Their tactics have gone awry; every household of the Afghan people have arisen against the invaders to oppose them and put resistance to them. Even in the national army and police of the Kabul stooge regime, anew trend has set in, that one out of ten soldiers wait the moment to find a ripe time to make short work of foreigners. Then the hero leaves the ranks of the army and police and joins Mujahideen.

Certainly the very path that will preserve American dignity is the path pinpointed by *The Washington Post*. They should act on the advice and do not leave the issue boiling until it comes to a head that the American people have no way but to resort to a country-wide uprising against them like that in Tunisia and Egypt. Then they would have to meet many demands of the street popular willy-nilly which they are not now willing to concede.

The Fifth Column Embraced In Sinful America's Lap, Spreading The Lying Buzz Of Negotiations

25 February 2011 By Abu Muthanna Badir

For months we have been hearing the startling and stunning buzz of negotiations, reports of which have been seen increasingly spread in an urgent and polished style by the ignorant Western news agencies, glossed with a hue of truth and veracity. This buzz has been repeated and spread until it was said: a high-ranking delegation from the Islamic Emirate met with officials of the lackey, mercenary government at the Sarina Hotel here in the Afghan capital Kabul. This was corroborated from the mouth of the snake-charmer president of this government in one of his interviews with the CNN satellite network.

Unfortunately, I have heard this false claim on the tongues of some naïve and stupid countrymen of ours, as well as those who wear the garb of the praiseworthy and innocent lamb who corroborate their words and bear witness for them because of the existence of common interests which they share with them, but at heart they have a faith that is weaker than the spider's web. We must not wonder at these biased (reports) and fabricated deceptions on the part of the enemy. Such contrivances are nothing but the practice of Americans and Westerners and the habit of the hypocrites and mercenaries. Whenever they fail in a conspiracy, they immediately resort to the next one – like a drowning man who extends his hand to even (pond) scum, hoping it will save him even though it is impossible for it to help him. The Afghans generally and the Mujahideen especially are fully aware of the tricks of the occupying enemy and his wicked plots. They have been hardened by wars and military plots throughout the past three decades which they have spent fighting foreign invaders and occupiers, and they have mastered all kinds of war. They will be not be duped by these farcical lies issued by the enemy even though these lies are deceptively coated as truth. The enemy has today retreated to the military invasion due to the heroism of the Mujahideen and the resistance of the Afghans. They resort to this toxic discharge among naïve circles of Muslims, with the intention of shaking their bright ideas, driving away their strong zeal, diminishing their religious awareness, causing their determination to slumber, and intoxicate their clear minds.

It is logically impossible for negotiations to be conducted with the lackey government and the fifth column so long as it is embraced in the lap of wicked America and while American flags are flapping above the peaks of this Muslim land. How is it possible? The Mujahideen have embarked on Jihad and given themselves and their souls to Allah Almighty. They have refused to have anything to do with this artificial life, and have chosen death over life. They have made countless sacrifices in these past three decades. They have turned to face and banded together against the pharaoh of this age (criminal America) with overflowing might and rushing zeal, bearing on their backs the responsibility for defending the frontlines of Islam and defending the territory of Islam in this blessed land against those criminals who have swept through many Afghan territories and committed repulsive crimes that send a shiver down the spine, especially in the south which they have occupied and where they have shed the blood of its innocent people until this day.

No matter how they spread the spirit of defeat and (try) to shake trust in the spirits of Mujahideen via their lying rumors and trying to shatter their solid wills; break their backs; destroy the optimism of Muslims in supporting the Religion and its people; spread their exaggerations and dull their senses. No matter what...no one will believe them (Allah willing) nor accept their false rumors. This is because the policy of the Islamic Emirate is as clear as the afternoon sun. The Emirate summit has more than once declared in its media statements that negotiations with the lackey government are not possible so long as Western armies are present here and while it remains the candidate of the first rank of collaboration, treachery and perfidy towards this country and its people. This is and remains the Emirate's policy, and there will be no concession or compromise on this.

What type of negotiations are these? The government has thus far been unable to make any statement in the name of any actual Emirate officials. They are just random words thrown about here and there. Unfortunately, some naïve individuals believe their words and vouch for them on their positions without knowing whether the basis for the reality for these positions are true or false. This just (reflects) the old understanding between them and the dissolute hypocrites and the presence of personal interests between them. Those stupid ones who are drawn by sentiment or an old understanding – as it seems to me – come appearing as servants of Allah SWT, but at heart their faith is weaker than the web of the spider. If they had truly read the glorious Qur'an then they would have denied the false rumors. Recall the words of Allah SWT:

"O ye who believe! If a wicked person comes to you with any news, ascertain the truth, lest ye harm people unwittingly and afterwards become full of repentance for what ye have done". (Al-Hujarat: 6).

Finally, I wish to gladden the hearts of dear brothers and lovers of Islam and Muslims; falsehood no matter how it grows and multiplies, and no matter how its roots and branches lengthen, there will (be) a hand of the people of truth to pluck it out. So, do not fear or be troubled. The glad tidings of victory appear on the horizon.

"Already has Our Word been passed before (this) to our Servants sent (by Us), that they would certainly be assisted, and that Our forces, - they surely must conquer." (Al-Saffat: 171-173).

So rejoice followers of Allah. Rejoice, soldiers of Allah:

"So lose not heart, nor fall into despair: For ye must gain mastery if ye are true in Faith" (Al-i-Imran: 139).

Discouraging words should not deter your determination to do good deeds. False news should not stop you so that you remain in the same place, not moving forward or producing any effect. Cling fast to the rope of Allah and trust in the victory of Righteous Allah.

"Whoever holds firmly to Allah will be shown a way that is straight" (Al-i-Imran: 101).

Place these false rumors behind your backs, for they are from the soldiers of Shaytan:

"It is only the Evil One that suggests you to fear of his votaries: Be ye not afraid of them, but fear Me, if ye have faith," (Al-i-Imran: 175), because he frightens us with his men at times and with his words at others and by making us despair at others. Allah only suffices for us; He is our Supporter and He is *"the best to protect and the best to help"*.

O ALLAH, MAKE THEM AND THEIR WEAPONRY A BOOTY FOR THE MUJAHIDEEN
YOU ARE OUR SUPPORT AND YOU ARE OUR ONLY VICTOR; BY YOUR ORDER WE ATTACK;
BY YOUR ORDER WE RETREAT AND BY YOUR ORDER WE FIGHT
O ALLAH, THE SKY IS YOURS; THE EARTH IS YOURS; THE SEA IS YOURS,
SO WHATEVER FORCES THEY HAVE IN THE SKY, DROP THEM.
DESTROY ALL THEIR FORCES IN EARTH AND SINK ALL THEIR FORCES IN SEA
O ALLAH, DEAL WITH THEM FOR VERILY THEY CAN NEVER DISABLE YOU
O ALLAH, RETALIATE UPON THEM, AFFLICT THEM LIKE YOU DID TO PHARAOH AND HIS NATION
O ALLAH DEFEAT THEM, DESTROY THEM O THE ALL-STRONG, THE ALL-MIGHTY
ALLAHU AKBAR
"HONOR, POWER AND GLORY BELONG TO ALLAH,
HIS MESSENGER AND THE BELIEVERS,
BUT THE HYPOCRITES KNOW NOT"
